

**IN THE SPECIFICATION:**

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~striketrough~~.

Please REPLACE the paragraph beginning at page 24, line 14, with the following paragraph:

As discussed above, according to the information search system in the first embodiment, the management server 11 collects the URLs tracing to the ~~he~~ contents retained by the content servers or the management server 11 itself in the network, then creates the EPG and distributes the EPG to the client. The client is able to reproduce or display the contents on the network in accordance with this EPG as if receiving a TV and a radio.
